

3 Functions of Any Organizations

- 1). Finance
- 2). Sales
- 3). Operation

MTBF Average

MTTF Life Cycle

Confidentiality
Encryption

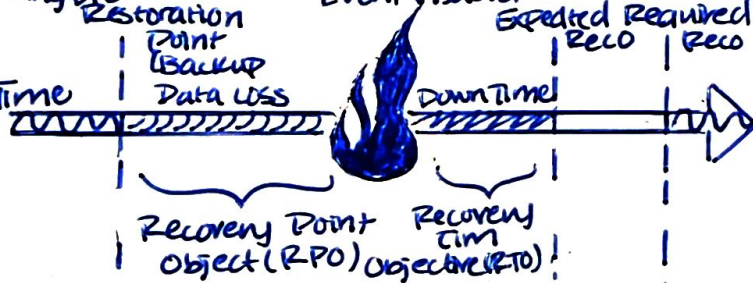

Integrity No! Alteration / Modification on Change Availability

RPO = Recovery Point Objective

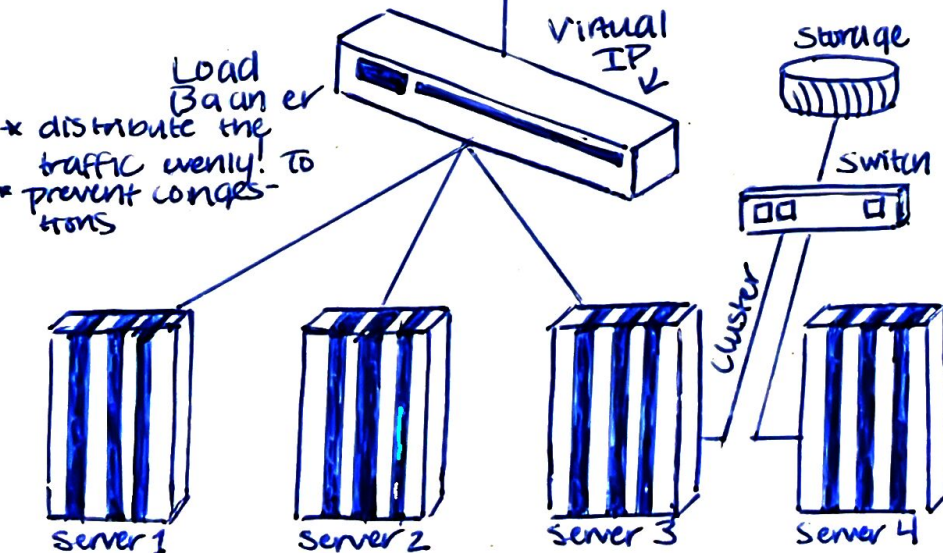

RTO = Recovery Time Objective

DOS = denial of service

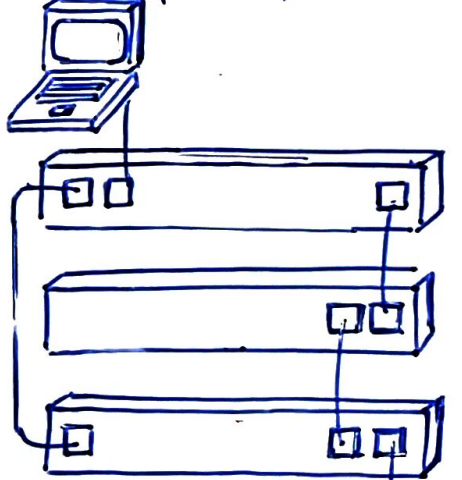

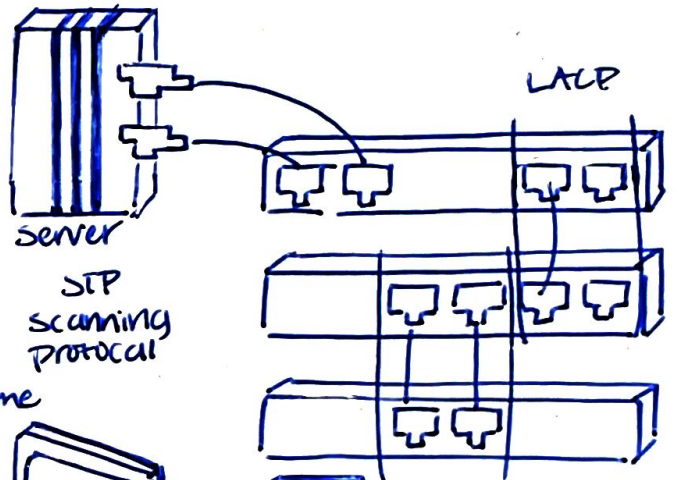

RTO is the amount of TIME lost, RPO is data loss or something that's tangible

RPO VS. RTO

* distribute the traffic evenly to prevent congestions

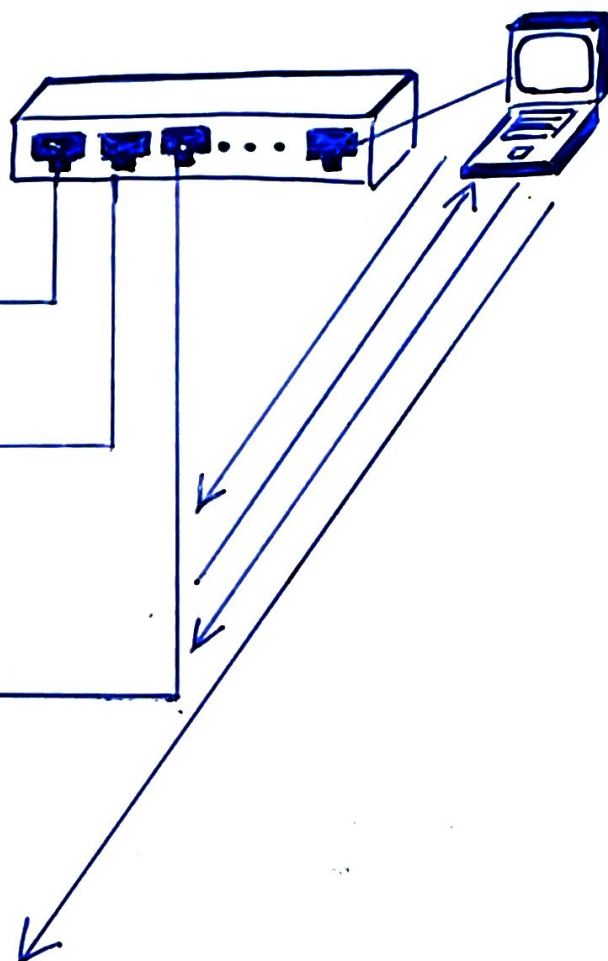

* Server 3 + 4 are CLUSTERS

- 1). Active - Active
- 2). Active - passive
